

Blue Ribbon Contracting  
7840 Pecan Ct.  
El Paso, TX 79915

December 17, 2009

Dear Steve Tullius:

I just wanted to let you know how pleased I am with the services you and Blue Ribbon Contracting have provided us here at Price's Creameries. It is difficult to find a contractor that you can trust to get the job done with a high degree of integrity and honesty. Your expertise and guidance have proven invaluable, especially with your understanding of the processes involved in manufacturing, material handling, and food processing.

On many occasions you provided us with critical information and ideas that have saved our company both time and money. Price's Creameries would not have realized these benefits if I had chosen someone else for the job or taken on the project internally.

I most appreciate your concern and care for our employees and our company. You are always trying to improve our systems and our facility as if they were your own and you always maintain a friendly and winning attitude toward our operators.

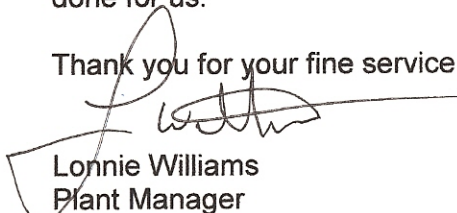

Your personal attention to seeing our projects through to completion and your willingness to work around our production schedules has made for many successful projects. Some of the areas you have helped the most are:

- Packaging Equipment Removal and Installation
- Equipment Automation
- Building Repairs
- Process Equipment Installation and Calibration
- Safety and Quality Work Orders
- Construction of a New Refrigerated Warehouse
- Compressed Air and Hydraulic Systems

I cannot say enough about what you and your company have done for Price's Creameries. Your family's long history of doing business with us (since 1974) and your continued dedication to addressing our needs gives me a sense of security that I will be well taken care of into the future.

Please allow me to highly recommend your company to anyone who is tired of dealing with the "typical" contractor and ready to find someone who will take good care of them as you have done for us.

Thank you for your fine service.

Lonnie Williams
